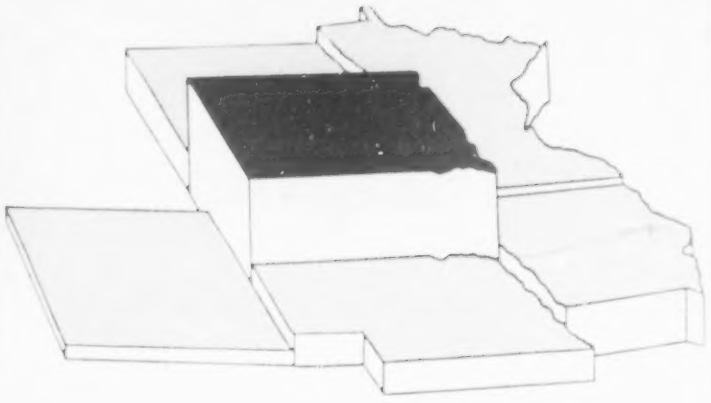
SOUTH DAKOTA Data Supplement

MARCH 1984

VOL. 1, No. 1



Published by the Business Research Bureau, University of South Dakota

Welcome to the DATA SUPPLEMENT

The **Data Supplement** is a publication for businessmen and policy makers interested in monitoring the business activity of South Dakota using timely sales tax data. The publication was created to accommodate the six issue requirement of the bimonthly sales tax collections enacted by the 1983 Legislature. Previously, sales tax remittances were collected and presented in the **Business Review** on a quarterly basis. The first bimonthly collection was due at the end of September in 1983 for collections made in the months of July and August.

The change in the data base from quarterly to bimonthly data does present problems when making year to year comparisons. In this issue and the next 3 issues, actual 1983 and 1984 data will be compared to estimates of bimonthly data in the preceding year to identify changes in business activity. The 1982 and 1983 estimates were made from national retail sales data and state 1982 and 1983 quarterly sales tax collection data.

Two summaries of the sales tax data, at mid year and year end, will be included in the **Business Review** as it is in this issue. The **Review** continues to be a service provided at no charge. More timely bimonthly data needs will require subscription to the **Data Supplement** for a cost recovery fee of 3 dollars per year. A subscription form is inserted in this issue of the **Business Review**. Note, that if you do not wish to subscribe to the **Data Supplement** but wish to continue receiving the **Business Review** you must still return the insert.

SOUTH DAKOTA SALES TAX REPORTS

During the past 18 quarters the **South Dakota Sales & Use Tax Quarterly Report** has been published by the Business Research Bureau. Due to increased demand for publications and the increase in the size of the document, the Business Research Bureau will no longer be able to cover the expenses of publication and mailing. The costs of **South Dakota Sales & Use Tax Bi-Monthly Report** and the **South Dakota Excise Tax Quarterly Report** will have to be charged back to users. The adjacent schedule of charges has been established to cover these costs.

In each case the charges recover the costs of publication and distribution. We are hopeful that this will not place a restriction on the use of the data.

The big news in South Dakota retail business is the 10.5 percent increase in retail sales in the smaller cities and towns. Double digit growth in this sector of the state's economy lagged that of the more urban economies by six months. Concern for the health of the less diversified rural economies of the smaller communities has not completely dispated but the two month performance is welcome news.

The counties of the top ten cities continued the robust growth of the preceding six months in Jan-Feb. Retail sales performed at the highest rate of the recovery period with a growth rate of 15.0 percent. This compares favorably with the national growth rate in retail sales in that period of 14.9 percent.

The national retail sales for the Mar-Apr period increased at a rate of 11.0 percent. The national index of consumer sentiment for the period increased slightly to 101.0.

1982 ECONOMIC CENSUSES

Recently preliminary results have been released for industries from the 1982 Economic Censuses. These four page reports provide a look at South Dakota's businesses. Below several industries are highlighted.

Retail Trade:

The number of hardware stores fell from 171 in 1977 to 148 in 1982. During the same time period sales increased 14.9 percent to $39,616,000.

The same was true for new car dealers. Sales increased by 19.9 percent between 1977 and 1982 to $471,504,000, while the number of establishments fell from 202 to 164.

Construction:

Total construction receipts of general contractors of single family houses declined from $79,499,000 in 1977 to $49,178,000 in 1982.

Service Industries:

Between 1977 and 1982, offices of physicians grew from 241 establishments to 284. Receipts in 1982 amounted to $114,746,000, which was 72.3 percent more than 1977.

The March-April Bimonthly retail sales for the counties of the top ten cities dropped from the previous bimonthly double digit growth rate but continued at a respectable 7.4%. The slowing growth rate followed the national retail sales trend as well as the downward trend in consumer sentiment. However, performance in individual cities varied, Sioux Falls lead the taxable sales increase in the larger South Dakota communities with a growth rate of 12.7% which also exceeded the national growth rate.

The performance of retail businesses in the smaller cities and towns continues to be a concern. No firm trend toward recovery has been established in these communities. The double digit growth rate of the preceding reporting period was followed this period by a slight decrease in taxable retail sales. Economic performance within this group varied widely with respectable gains made by some cities and towns and substantial losses experienced by others.

The national retail sales increased at the rate of 10.8% for the May-June period. The national index of consumer sentiment for the period fell 2.9 points from 101.0 to 98.1.

(6) LARGEST TEN CITIES BY POPULATION

Growth in South Dakota retail sales continued strong in the May-June Bimonthly for the counties containing the ten largest cities in the state and bounced back in the remainder of the state. The 17.8 percent growth rate in retail sales for the more urban counties in May-June set a period high while the more rural counties moved from a negative growth position in the previous reporting period to a growth rate of 9.6 percent in this reporting period.

The state's growth in retail sales during the first six months of 1984 over the same period in 1983 was 11 percent. That lagged the national retail sales performance of 12.1 percent growth by 1.1 percentage points. In contrast, the counties of the top ten cities in South Dakota outperformed that 12.1 percent national average by 1.3 percentage points with an increase of 13.4 percent for the period. The rural communities did not fare as well as their larger neighbors over the six month period due largely to poor performance in March and April but did record a growth rate of 5.9 percent.

The national retail sales increased at the rate of 8.6 percent for the July-August bimonthly period. The national index of consumer sentiment for the period fell 1.5 points from 98.1 to 96.6.

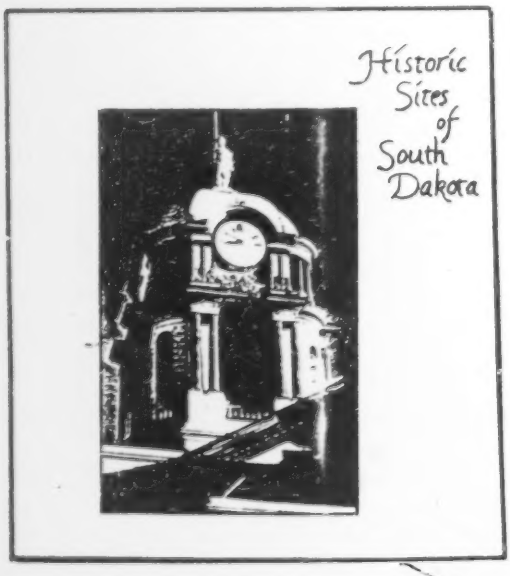
The Handbook of Manpower Statistics for South Dakota is completed and ready for mailing! The Handbook provides a convenient 300 page source of the 1980 Census of Population manpower data pertaining to South Dakota and its entities. Data are presented for the State, and its counties wherever possible. In many cases, the counties are summarized into the six legislated Economic Regions. The Handbook is available upon request at $10.50 per copy including postage. Send requests to address listed below.



Historic Sites of South Dakota--A Guidebook features 125 pages that explore South Dakota's heritage. The Guidebook has two main parts--a historical essay and a historic sites section. Also featured are listings of historic sites, museums, and state parks along with a particular area. The Guidebook is available at $2.36 per copy. Send requests to address listed below.
